

BIIAB Level 2 Diploma in IT User Skills (IT Apprentice)

IT skills are essential in today's competitive market place with an increased reliance on these functions to develop with the pace of change. The programmes are designed for those working in a role using IT and want to develop or gain new IT skills. Studies are applicable across industry sectors and provide valuable skills in support of the modern working business.

What does it comprise of?

To achieve the level 2 diploma the candidate will need to complete units to gain a minimum of 38 credits.

The IT user qualification provides flexible training through the study of 3 mandatory and a combination of optional units. The level of a qualification is determined by the level of the mandatory unit. Each unit carries a point value.

Word Processing Software	4	2
Word Processing Software	6	3

Assessment

To complete the Apprenticeship in IT user Skills learners must complete the following components:

- Level 2 NVQ Diploma in IT User Skills
- Functional Skills: English Level 1, Math's Level 1 and IT Level 2
- Personal Learning and Thinking Skills
- Employment Rights and Responsibilities

How long will it take?

To protect quality and make sure all apprentices receive a high-quality meaningful experience, all Apprenticeships must last for a minimum period of 12 months. In some cases the Apprenticeship may be longer and is based upon a number of factors including the number of hours the learner works and the requirements of the apprenticeship framework for the sector they work in. The apprenticeship includes guided learning, assessment and training, and monitored workplace practice which is planned and agreed between the learner, their employer and their Training Advisor.

Progression

Learners may progress onto Level 3 Diploma in IT User Skills, which forms part of an Apprenticeship framework.

How to participate

Our centre will provide you with advice on how to access the programme, methods of delivery and eligibility for funding.
