Leadership & Management Services

Team Leader Level 3 Apprenticeship

This Apprenticeship is for those who are managing individuals, a team, or elements of a project looking to upskill and more effectively support, lead and nurture their teams. Apprentices should already be working in a position where they lead a team or oversee tasks, even if informally. The programme is designed to build on existing experience, so having that foundational responsibility is essential for applying the learning in a work-based context. Team leaders are vital for the smooth functioning of all departments in any organisation and are often responsible for ensuring the function is correctly administered and maintained in line with legislation of the organisation's procedures.
